

Professional Services Businesses Accounting, Auditing, Tax and Advisory Services

Professional Services Practice Group: An Overview

You entered your profession to be the best you could be at something you loved. Years of education and career development left little time to thoroughly grasp the business aspects of your chosen field. After achieving professional acclaim and an enviable client base, it may be time to take stock. Sustaining your success will depend not only on your professional expertise, but on solid, profitable financial performance.

RBF's clients in healthcare, law, architecture, engineering and other professions have the confidence of knowing that we have experienced the challenges they face first hand. Our portfolio of skills in business strategy and operations, financial systems, accounting & audit, taxation, M&A and valuation, provides them with the right mix of services to meet their needs for today and prepare them for tomorrow's challenges.

Some specific ways we help our professional services clients:

- General accounting, record-keeping, reconciliation and financial reporting
- Payroll management
- Budgeting and cash flow projections
- Tax structuring and reporting for practices and individuals
- Funding strategies for buy/sell agreements
- Benefit/compensation plan structuring
- Recruitment and retention counsel
- Industry benchmarking and performance metrics
- Valuations
- Transaction advisory services

But that's only part of the story.

For a more specific description of these and other accomplishments on behalf of our professional services clients, please call: Salvatore P. Falzone, Jr., CPA at (781) 321-6065, ext 117 or email salf@rbfpc.com

RBF Client Benefits:
